**START/FINISH:** During warm-up sessions, competitors will take the checkered flag at Corner 14 and pit immediately. Double yellow flags will not be displayed at corner 15 on starts and restarts. The race will begin and end at the stripe in front of Timing and Scoring. Under a Checkered Flag or Black Flag ALL, if an EXIT sign is displayed at turn five, all cars must exit the course at that location and follow the direction of officials at the paddock crossover. An electronic display board may be used at the starter stand.

**EVENT SCHEDULE / RUN GROUPS:** See official schedule for race grouping and session lengths. The event schedule or run groups may only be changed by the Race Director, with agreement of the Road Racing Committee Chairman, depending on pre-race entry counts or as needed to accommodate event circumstances. If changes are made prior to the start of the event, as much notice as possible will be given to all affected competitors. The schedule as published is for planning purposes only. Actual session start times may deviate from the published schedule based on event circumstances. Please listen to the PA system and pay attention to what is happening on track. Start times indicated in schedule are when cars are scheduled to be released from grid onto the track. The session time for qualifying begins when the signal is given to release the cars from the Grid. The time for the races begins at the completion of the first pace lap.

**TIMING AND SCORING:** If the Race Director allows the substitution of a car or driver, per GCR 5.12.3.A.6, any qualifying times earned for the original car / driver up to that point will be removed.

**BLACK FLAG:** Vehicles which are leaking/spilling fluids, including fuel, may be black flagged from any session.

**GRID:** Starting positions for the Saturday race will be determined by the fastest lap recorded for each car during the preceding qualifying session. Starting positions for the Sunday race will be determined by the fastest lap time recorded for each car during each of the preceding qualifying sessions and their fastest lap during the Saturday race. If qualifying is not run for a group for any reason, the Race Director shall determine the method of setting the grid for the race. The fastest qualifier in a race group who selects the "outside pole" (per GCR) must notify the Grid Marshal at the front of the field before the five-minute warning is given for that race group. Cars arriving at the grid after their group has been dispatched on track may, at the discretion of the Operating Steward, be held at pit out and released at the end of the pack after the field has completed the pace lap.

**PACE/SAFETY CAR:** In addition to GCR 6.6.2, the field shall follow the Pace/Safety car as long as its emergency lights are flashing, even if it varies from the normal race course. In the event a full course yellow results in dispatch of the safety car, the safety car will enter the racing surface at pit out. **In the event of a wave-off during a start or an incident at the start, a safety car may be dispatched from corner 5 to pick up the field. (added 6/28/2019)**

**RADIO FREQUENCIES:** The radio frequencies below are reserved for race operations and may not be used by any competitors. Race Officials may designate other frequencies for race administration.

452.700	457.700	461.150	461.325	462.200	463.700	464.075
461.175	463.225	464.525	466.175	468.225	469.525	

**SOUND CONTROL:** The maximum sound reading allowed by local ordinance is 103dB. **During each qualifying session, if your car has three or more readings in excess of 103db, you will be black flagged and will lose your qualifying times for that session. During the race, if your car has three or more readings in excess of 103dB, you will be black flagged and moved to last finishing position with a loss of event points. (modified 06/28/2019)** For your information, sound readings will be posted at driver information (by the gas pumps). Please see Addendum A: Rules of Road America section 5.0 for when race engines may be run and quiet hours.

**DISABLED CARS:** Disabled or damaged cars may be removed from the course and delivered to a central location. If the car has sustained body/chassis damage, it will be released to the driver/crew after tech has made appropriate

notations in the vehicle log book. Cars disabled due to a mechanical failure will be released to the driver/crew immediately. If the car requires wrecker support to return to its paddock location, there may be a delay depending upon the availability of wreckers or flat tows.

**PADDOCK/PARKING:** Parking regulations are incorporated in these regulations by reference. Failure to follow the direction of the paddock marshal or his designate regarding paddock parking or activities may result in expulsion from the facilities.

Paddock areas allowed for this event are Main Paddock (excluding paddock spot #1 across from the Hagerty Tech Center garage closest to the CTECH Scale House, spots #34 and #35 which are the two spots to the south of the garage spot down to the paddock lane), Competition Paddock, Lower West Paddock, and North Paddock (excluding Lester Car Port Paved Pad).

“Paddock” does not include pavement in the motor home parks, pavement by the Road America Center, paved areas in North Paddock/Lester Car Port, the Corporate Pad, pavement in front of scale building, pavement directly in front of overhead doors of the Tech Center, any area that is designated as a fire lane, Paddock Shop patio or Victory Lane area. A fee of \$500 will be levied for each infraction.

Participants are required to take care with all pavement and other surfaces in the paddock areas. There will be no unprotected jack stands. There will also be no fuel, oil, brake cleaner or other fluid spills without clean up. Participants are required to report all spills immediately to RA personnel for proper cleanup. Failure to do so will result in fees for repair of such surfaces.

No parking is allowed in fire lanes or other non-traditional parking spaces such as the grass behind the VIP tower or pavement not marked for parking. Parking for the tower is only allowed in the reserved media parking spaces along the south tree line of the VIP tower parking lot (the open parking lot is reserved for R/A use when needed).

Any changes to the allowed parking areas will be posted at the Registration Building. Parking in any area other than those listed may result in a fine or fee levied. The fines will be the responsibility of the violator. Test day participants parking in restricted areas as shown on the map will be required to move or face penalties defined by the region and Race Director. Please reference the attached map of the locations.

**CLOTHING:** Proper credentials, pants (long pants or shorts), closed-toe shoes, and shirts with sleeves are required in the pit lane, grid, and false grid.

**PIT LANE:** Cars entering the track from the pits must remain to the right of blend line until the end of that line at turn one.

Use only those pit stalls south of start/finish. Please do not put any equipment in pit lane, including at the pit wall, +/- 10 feet of start / finish, as this may interfere with timing and scoring electronics.

All competitors must maintain a slow, prudent speed on pit lane at all times. Use the transit lane until reaching and upon exiting your pit stall. Do not drive through other pit stalls. Tire scrubbing is permitted after the apex of corner one.

To facilitate timely movement of the next race group onto the track, cars entering the pits following the checkered flag may be stopped before center pit to allow the next group to exit the grid.

Four (4) crew members (plus the driver) are allowed over the wall to service a vehicle in pit lane, and only two (2) crew members are allowed trackside wall for signaling purposes. No crew members are allowed on the pit lane wall or trackside during starts and restarts.

All cars will exit the hot pits only at pit out.

**SOCIAL EVENT:** There will be a Worker / Competitor dinner party located at the Road America Center at the conclusion of activities on Saturday and will be followed by Cat Box Races.

**DATA ACQUISITION:** Majors staff and their delegates may install data acquisition equipment in a competitor's car. This program assists the CRB in performance balancing. All cars carrying an SCCA data collection device shall report to impound after their session.

**CURRENT TRACK RECORDS:** Current Road America track records may be found at on the CenDiv website at: [cendiv-scca.org/wp-content/uploads/TrackRecords/ra.pdf](http://cendiv-scca.org/wp-content/uploads/TrackRecords/ra.pdf)

**WELCOMING ENVIRONMENT:** The Central Division SCCA and its regions aims to provide an inclusive, welcoming environment for all participants. To that end, behaviors such as the following will be considered egregious examples of GCR 2.1.7, "Acting in an unsportsmanlike manner", and will be penalized as such:

All on-track body contact (including contact during drafting) that causes a car to act erratically and result in a change of position or a car leaving the course will be investigated.

**CAMPING:** Camping will not require passes for either tent camping or motorhome camping; however, electrical hook-up tag fees still apply. This is thanks to the drivers' contributions to the Worker Fund. 1. There are two classes of cat boxes: BP - Be-Prepared, FC - Formula Cat Box.
2. Course length will be determined at the event and is subject to the approval of the chief steward.
3. The course will be straight or round as the chief steward's whim sees fit.
4. Number of race laps TBD -- usually at least one or until all the boxes fall apart.
5. In case of inclement weather, a cat box show will be held in lieu of races. FC class entries will be given 5ish minutes to complete their boxes. (These are the same 5 minutes that drivers get on the grid so they can be any duration as determined by the chief steward)
6. The Chief Steward reserves the right to amend, modify, or supplement these regulations at her whim.
7. BP Class – Be Prepared - This is mostly a show class. In recognition of the overall event theme, the rule set is being rolled back to a time when racing was bigger than life – **Cat-Am**.
  - a. You 'run what ya brung'
  - b. Box material is anything that will hold a passenger
  - c. Box size is anything that will hold a passenger
8. FC Class – Formula Cat
  - a. Cat boxes are limited to a Minimum of 16" length and width. ( 16 x 16 x X) There is no maximum size. If you build it, you can run it. (all other rules still apply) The race committee will have a supply of boxes available for the teams. Feel free to supply your own box that meets the above requirement.
  - b. Boxes, tape, rope, cutting devices will be provided.
9. General rules – Applies to all classes
  - a. There is a minimum of two people and a maximum of three people per team. There is no limit to the number of crew members to help build the cat box.
  - b. Two feet must be in the box at all times. This can be a rider with both feet, or one foot from two individuals. Riding in or on the box is encouraged but not required.
  - c. Each Box must have a rope firmly attached to the Box.
  - d. In the event that the rope becomes detached during the race, the participants must return to the pits and re-attach the rope.
10. Boxes and teams will be lined up at the box grid area to start their race preparation.
11. A full course yellow flag will be displayed to start the pace lap, at which time each CBR team will build their box and go to the Start/Finish line to stage for their race laps. There will be a 5ish minute pace time allotted. After this, a separate green flag will be used to start the full race competition. **Extra time will be allotted for slower teams as deemed fit by the chief steward.**
12. Smoking is prohibited in the pits, grid and false grid areas.
13. Neck restraints may be used on unruly participants.
14. Have fun.
15. Special thanks to Lindstrand Motorsports for storing and transporting the boxes.
