**Section Protested:** D. Exhaust manifolds, headers, downpipes, and associated EGR tubes may be replaced with alternate units. Exhaust exit may be relocated provided it meets Section 3.3.B.16. Relocation of the oxygen sensor on the header is permitted, including lengthening or shortening oxygen sensor wiring. Exhaust heat shields which cover only, and attach solely to, these parts may also be replaced, removed, or modified. All other exhaust heat shields may be modified the minimum amount necessary to accommodate allowed alternate exhaust components. Mounting brackets/hardware which serve no other purpose are considered part of the exhaust components.

**Protest Description:**

Factory heat shield on the turbo was removed and replaced with a heat blanket.

**Protest Committee Decision:**

Per 14.10.D, we find the car non compliant. There is no allowance to replace a shield that covers the turbine on the turbo.

The committee finds that the penalty for this shall be the addition of 5 seconds for each run. This shall apply to apply to every run where the vehicle is not compliant.

FINDINGS OF THE PROTEST COMMITTEE - At the Solo National Championships on 9/7/21 Kevin Schultz protested the Fiat Spiders of #91 Adam Norton and #14 Jacob Ronald/#114 Alan Salnikov for violating section 14.10.D of the Solo Rule Book.

The PC agreed with the protestor and added 5 seconds to each recorded time for #91, #14 and #114. Mr Norton, Mr Ronald and Mr Sanikov are appealing that decision.

DATE OF THE APPEAL - The Solo National Appeals Committee (NAC), Jeff Cashmore, Steve Hudson and Doug Wille, met on October 1, 2021, to review the evidence, hear testimony, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED - Letters of appeal from Mr Norton, Mr Ronald and Mr Sanikov.

FINDINGS - Per 14.10.D, we find the car non-compliant. There is no allowance to replace a shield that covers the turbine on the turbo.

DECISION - The NAC upholds the PC decision in its entirety. The appeals are well founded and their appeal fees, less the administrative amount retained by SCCA, will be returned. The NAC also recommends that the STAC revisit the rule to add more clarity.

Section Protested: Section 17 weights

Protest Description:

Four pounds under weight. Measured by impound multiple times.

Protest Committee Decision:

Per section 17, the protest committee finds the car out of compliance with the stated 3000lb minimum weight. The penalty assessed will be 5 seconds added to every run for the day.

**Section Protested:** Appendix A (F Modified), A.4. Rotax 593 minimum weight 850.

**Protest Description:**  
4 lbs under minimum weight

## Protest Committee Decision:

The committee finds that the car was in violation of the rule stated above and, therefore underweight. A penalty of 5 seconds added to each run for today will be assessed.

Section Protested: Appendix I

## Protest Description:

Inconsistent sound reading on my car. My car usually no issues with sound. No issues with my car all during sessions at the Pro Solo and day 1 of Nationals. I made the usual change , 2 exhaust restrictors, that cuts 1-2 dB, and sound did not change. I added 2 more and ran 98.6 my last run. Chief steward observed sound meter and 2 dB fluctuations because meter is pointing upward and picking up cars at finish. I contend, that this may have effected my reading as I proved on my third run that the restrictors did what they usually do, and my early run may have had effects from finishing car adding sound to my reading.

## Protest Committee Decision:

The Protest Committee (PC) reviewed the operation of the sound meter on course, along with the Chief of Sound. The PC requested the sound meter to be recalibrated. The Chief of Sound validated that the sound meter was out of calibration by a greater margin then the competitors recorded violation.

Furhtermore we observed that there was significant cross traffic sound that was detectable as cars were finishing the course behind the sound meters location.

The PC finds in favor of the protestor and all penalties imposed on run #2 and run #3 shall be removed.

The protest committee finds that the protest is well founded and that the protest fee shall be refunded.

## Section Protested: 7.8.2

“A competitor encountering a downed or displaced cone on course has the option of continuing the run or stopping as soon as possible... if the competitor continues the run, the time will stand but may be subjected to penalty for the downed or displaced pylon.”

## Protest Description:

An outside-defining cone was displaced by the previous car on course, and not replaced by a course worker by the time I came through that spot. The chief steward claims he witnessed me drive across the spot where the cone should have been from grid hundreds of feet away. I was notified I must take a rerun. I attempted to deny the rerun but was told the run would be a DSQ.

In researching the run after the heat, video from in-car shows in a reasonable perspective that the place the cone would have been was not crossed. Other competitors also spectating from hundreds of feet away claim they do not think the car crossed where the cone should have been. GPS data also shows reasonably that I was further to the left (away from the cone) than all other runs.

In full review, I believe I drove the course as presented and I do not believe there is any possibility I either crossed the displaced cone or would have hit the cone, and would like my original run reinstated, as it is certain the previous car hit the displaced pylon.

## Protest Committee Decision:

Per 7.8.2 the competitor has the option to stop or continue if a cone is displaced. However, the other rule that applies to this situation is 6.2, in that, "The course configuration must be the same for all drivers in the class." Based on this, the Chief Steward determined the course was not the same, therefore disqualifying the run and granted the competitor the rerun, as per section 7.4.

The protest committee finds that this protest was in good faith and the protest fee shall be refunded.
