At noon on May 20, all unused reserved numbers will be released on a first-come, first-served basis. All three-digit car numbers must start with 1, i.e.: 1XX. When two drivers are sharing the same car for the weekend, each entry must have a different number assigned to them. You may attempt repairs and re-enter, but times prior to the black flag are lost. During the race, if your car has a sound reading in excess of 102dB three or more times, you will be black flagged, and moved to last finishing position with a loss of event points. When possible, during any on-track session, in the event that your car is measured above the maximum, you may be shown a furled black flag and SOUND board with your car number at Start/Finish. This is to advise you that your car has exceeded the limit and is not a penalty – rather, an advisory to provide an opportunity for you to address the issue. **No race car or engine with**

open exhaust shall be run before 8:00AM or after 6:00PM on weekend day or after 4:30PM Friday night. Quiet hours are 10PM until 6AM. Activities that may disturb others ability to sleep during this time are prohibited. It is requested that generators are only used when absolutely necessary.

III. CAR SAFETY and TECH INSPECTION

- A. **TECH** will be located inside the paddock for all drivers. All drivers without a current year helmet sticker **MUST PRESENT** to Tech all their driver safety equipment (as listed in the GCR) including helmet and Vehicle Logbook and completed tech card (obtained at Registration) prior to obtaining their event tech sticker. If the logbook does not have a current Annual Technical Inspection stamp, the vehicle must also be presented. Note that cars must be reinspected if damage or deficiencies from the car's previous event(s) are noted in the logbook or if the car changes category. Please allow sufficient time to have your car inspected. Drivers with a current year helmet sticker (signifying that their driver gear and helmet have been inspected previously in the current year) are not required to present their gear at Tech. Only the helmet, logbook, and completed tech card are required to be presented.
- B. **DECALS:** Competition vehicles must display the official SCCA Summit Racing Equipment Road Racing decal per GCR section 9.3.29.C (Figure 4.) To be eligible for the CenDiv Divisional Championship Series presented by TRO Manufacturing and BrakeOMeter, cars are required to display CenDiv Series stickers visibly on both sides of the vehicle. Stickers will be provided free of charge and may be obtained at tech.
- C. **DATA ACQUISITION:** SCCA staff and their delegates may install data acquisition equipment in a competitor's car. This program is to assist the CRB in performance balancing. If selected, participation is not optional and is not protestable. The data collected will not be used for compliance purposes. All cars carrying an SCCA data collection device must report to impound and be weighed immediately after their session. Failure to do so may result in penalties.
- D. **SCALES:** Scales are located at the Tech building and scale hours are listed in the event schedule. Scales may be available for other participants during race impound, but priority will be given to impounded cars. Scales may be made available at other times at the discretion of the Chief of Tech.

IV. QUALIFYING/RACE

- A. **GRID:** Starting positions for each day's race will be determined by the fastest time recorded for each car during that day's qualifying session. If qualifying is not run for a group for any reason, the Chief Steward shall determine the method of setting the grid for the race. If the Chief Steward allows the substitution of a car or driver, per GCR 5.12.3.A.6, any qualifying times earned for the original car/driver up to that point will be removed. The fastest qualifier in a race group who selects the "outside pole" (per GCR) must notify the Grid Marshal at the front of the field before the five-minute warning is given for that race group. Cars arriving at the grid after their group has been

dispatched on track may, at the discretion of the Operating Steward, be held at pit out and released at the end of the pack after the field has completed the pace lap.

- B. **RACE:** A driver who is unable to maintain a safe pace during the race may be black flagged.
- C. **TIMED SESSIONS:** Depending upon the circumstances, the Chief Steward may direct that the clock will continue to run during a black flag all in a timed session.
- D. **SPLIT STARTS** are at the discretion of the Chief Steward who must receive a request within 30 minutes after posting the final grid.

V. IMPOUND

- A. **IMPOUND:** During qualifying, random cars may be directed to impound. Watch for the IMPOUND sign and proceed to the scales/impound after exiting the pit lane. For Saturday and Sunday races, the top three competitors in each class shall report to scales/impound immediately following the completion of their race or victory lap.
- B. **CONTACT AND FLAG RULE VIOLATION:** A competitor involved in contact or who has violated flag rules (yellow, black, red, or checker) must proceed directly to the black flag station or impound in the racecar at the end of the session, and report to the steward. **All on-track body contact** (including contact during drafting) that causes a car to act erratically and result in a change of position or a car leaving the course will be investigated. Drivers who do not satisfy this requirement will be referred to the Stewards of the Meeting (SOM).
- C. **DISABLED CARS:** Disabled or damaged cars may be removed from the course and delivered to a central location. If the car has sustained body/chassis damage it will be released to the driver/crew after tech has made appropriate notations in the vehicle logbook. If the car requires wrecker support to return to its paddock location, there may be a delay depending on the availability of wreckers or flat tows.

VI. GENERAL

- A. **RACE LENGTH:** Races will be 22 laps or 30 minutes (whichever comes first) for Saturday and 22 laps or 35 minutes (whichever comes first) for Sunday unless declared otherwise by the Chief Steward. When the LAST LAP INDICATOR is given at Start/Finish the next flag will be a checkered flag. In the case of a long delay and where the time limit has expired, the Chief Steward may convert to laps to allow a green, white, checker to complete the race.
- B. **JUDGES OF THE FACT:** Any starter, steward, or timing person in an appropriate location as determined by their chief or Race Director/Chief Steward are designated Judges of the Fact for starts and finishes per 5.11.3.
- C. **RESULTS:** Unless otherwise announced, live timing will be available during the event via the Race Monitor App and Race Hero app, both have apps for iPhone and Android phones. Live timing information is neither official nor protestable. Provisional and final grids and race results will be posted on-line at bit.ly/cendivresults and official race results will be available on the Milwaukee Region (scca-milwaukee.org) website as soon as possible after the conclusion of the event
- D. **START TIMES:** Schedule times are when cars are scheduled to be released from grid onto the track.
- E. **EVENT SCHEDULE / RUN GROUPS:** Actual session start times may be delayed from the published schedule due to unforeseen circumstances during the event. It is the driver's responsibility to listen to the PA system and pay attention to activity on track. The schedule or run groups may only be changed (or start times advanced) at the discretion of the Chief Steward, with concurrence by a Road Racing Co-chairman, without SOM action, depending on pre-race entry counts or as needed to accommodate situations during the event. This is not subject to protest or SOM action. See official schedule for race grouping and session lengths. If changes are made prior to the start of the event, as much notice as possible will be given to all affected competitors.
- F. **CANCELLATION:** If part of an event is cancelled for reasons of safety or forces beyond our control as provided by GCR Appendix B.1.2.A., points will be awarded based on race grids.

- G. **CLOTHING:** Safe apparel must be worn in the grid, false grid, and pits at all times (sleeved shirts and closed-toe shoes). Crew members must display their event credentials at all times while on pit lane and on the grid.
- H. **PIT LANE:** Drivers are to maintain a safe speed on Pit Lane with **absolutely** no racing. Cars entering the track from the pits must remain to the right of blend line until the end of that line. Tire scrubbing is permitted after the apex of corner one. When in your pit stall please stop as far to the right as possible for the safety of crew and pit lane personnel. Use the transit lane until reaching and upon exiting your pit stall. Do not drive through other pit stalls. Four (4) crew members (plus the driver) are allowed over the wall to service a vehicle in pit lane and only two (2) crew members are allowed over the wall trackside for signaling purposes. No crew members are allowed at the pit wall during starts and restarts. Please do not put any equipment in the pit lane, including at the pit wall, +/- 10 feet of start/finish as this may interfere with timing and scoring electronics.
