Due to the make-up of the run groups, this may not be possible in all situations. At noon on July 8, 2024, all unused numbers from both reserved number lists will be released on a first-come, first-served basis. All three-digit car numbers must start with 1, i.e.: 1XX. When two drivers are sharing the same car for the weekend, each entry must have a different number assigned to them. Also, when one driver enters two different classes in the same race group, he must have a different number for each class entered.
- G. **PADDOCK/PARKING INFORMATION:** Parking regulations are incorporated in these regulations for reference. Failure to follow the direction of the paddock marshal or their designee regarding paddock parking or activities may result in expulsion from the facilities.

Paddock areas allowed for this event are Main Paddock (excluding paddock spot #1 across from the Hagerty Tech Center garage closest to the CTECH Scale House, spots #34, #35, and #36 (which are the three spots to the south of the garage spot down to the paddock lane), West Paddock, Lower West Paddock, Competition Paddock, and North Paddock (excluding car port, paved pad). The area both on the grass and on the pavement immediately south and west of the CTECH Scale House and between the CTECH Scale House and Hagerty Tech Center garages is reserved for SCCA Official parking only. Violators may be towed without notice.

“Paddock” does not include pavement in the motor home parks, pavement by the Road America Center, paved areas in North Paddock/Lester Car Port, the Corporate Pad, pavement in front of scale building, pavement directly in front of overhead doors of the Hagerty Tech Center, any area that is designated as a fire lane, Paddock Shop patio or Victory Lane area. A fee of \$500 will be levied for each infraction.

Participants are required to take care with all pavement and other surfaces in the paddock areas. There will be no unprotected jack stands. There will also be no fuel, oil, brake cleaner or other fluid spills without clean up. Participants are required to report all spills immediately to RA personnel for proper cleanup. Failure to do so will result in fees for repair of such surfaces.

No parking is allowed in fire lanes or other non-traditional parking spaces such as the grass behind the VIP Tower or pavement not marked for parking spaces. Parking for the tower is only allowed in the reserved media parking spaces along the south tree line of the VIP Tower parking lot (the open parking lot is reserved for R/A use when needed).

Any changes to the allowed parking areas will be posted at the Registration Building. Parking in any area other than those listed may result in a fine or fee levied. The fines will be the responsibility of the violator. Test day participants parking in restricted areas as shown on the map will be required to move or face penalties defined by the region and Race Director. Please reference the attached map of the locations.

II. **DRIVER INFORMATION**

- A. **DRIVER ELIGIBILITY:** Each driver must be a current member of the SCCA and hold a SCCA Full Competition license to participate in this event. SCCA Pro Racing licenses are not accepted. If you do not have the proper credentials, it is your responsibility to contact the Registrar prior to the event.
- B. **IN-CAR CAMERAS** are required per GCR 9.3.11.
- C. **TIMING & SCORING:** Each car in each class is required during each of its on-track sessions to have a properly mounted and functioning TR2, AMB TRANX 260, or Mylaps X2 car transponder and the driver is responsible for providing

July 11, 2024 SOM Action

correct information to Timing & Scoring. Make sure your transponder is on and functioning for ALL SESSIONS. Information gathered from data collection systems and/or personal timing systems is unofficial and will not be used by race officials.

- D. **COURSE:** This is a 4.048 mile track that runs clockwise. Double yellow flags will not be displayed at Turn 15 on starts and restarts. Yellow lights may be displayed on the bridge near Turn 15 on starts and restarts. The race will begin and end at the stripe in front of Timing and Scoring. Under a Checkered Flag or Black Flag ALL, if an EXIT sign is displayed at Turn five, all cars must exit the course at that location and follow the direction of officials at the paddock crossover.
- E. **PACE / SAFETY CAR:** In addition to GCR 6.6.2, the field shall follow the Pace/Safety car as long as its emergency lights are flashing even if it varies from the normal racecourse. In the event a full-course yellow results in dispatch of the safety car, the safety car will enter the racing surface at pit out.
- F. **FULL COURSE YELLOW PROCEDURES:** Upon display of the full course yellow, the race leader must slow the field to the speed of the pace car at lights out on the initial pace lap as soon as practical. Trailing cars must pack up, using caution that cars ahead may be at a slower pace. In the event of a wave-off during a start or an incident at the start, a safety car may be dispatched from corner 5 to pick up the field.
- G. **BLACK FLAG:** The Black flag will be displayed at turn **13** and start/finish. If you receive a black flag, you must report to a steward at the Black Flag station or impound. The Black Flag station for the qualifying sessions will be located south of the tunnel which is just past the exit of Grid. **For the races**, the Black Flag station will be located in impound by the scales.
- H. **RADIO FREQUENCIES:** The radio frequencies below are reserved for race operations and may not be used by competitors. Race officials may designate other frequencies for race administration.

452.7000	457.7000	461.1500	461.3250	462.2000	463.7000	464.0750
461.1750	463.2250	464.5250	466.1750	468.2250	469.5250	

- I. **SOUND CONTROL** is located drivers left just past Turn 3. The maximum sound reading allowed by local ordinance is 103dB. During qualifying, if your car has a sound reading in excess of 103dB three or more times, you will be black flagged, and lose qualifying times for that session. You may attempt repairs and re-enter, but times prior to the black flag are lost. During the race, if your car has a sound reading in excess of 103dB three or more times, you may be black flagged, and moved to last finishing position with a loss of event points. When possible, during any on-track session, in the event that your car is measured above the maximum, you may be shown a SOUND board with your car number at Start/Finish. This is to advise you that your car has exceeded the limit and is not a penalty – rather, an advisory to provide an opportunity for you to address the issue. For your information, sound readings will be posted at driver information (by the gas pumps). Please see Addendum A: Rules of Road America section 5.0 for when race engines may be run and quiet hours.
- J. **HARDSHIP LAPS:** Hardship laps will be available for a limited number of cars between sessions, provided the course conditions and schedule permit. A hardship lap is defined as a single lap from pit out to the cross-over at Turn 5. To request a hardship lap, present your car at the top of the Grid (north side of the tunnel) before the end of a session and advise the Grid officials of your need. You may not take a hardship lap immediately prior to your session.
- K. **AWARDS:** SCCA U.S. Majors Tour points and trophies will be awarded in accordance with the GCR and these Supplemental Regulations. Trophies and checkered flags be available for pickup at driver information (by the gas pumps) after the race results become official. No trophies will be mailed. Only Sunday’s Majors race will be points race for the CenDiv Champ Series.

- L. **VICTORY LAPS:** Winner of all races will receive a checkered flag. For Sunday races only, following the cool down lap, the winner of each class should proceed immediately to pit out where they will receive a checkered flag and proceed on course for a single Victory Lap, weather and schedule permitting. Passengers are permitted in accordance with GCR 6.11.7. Drivers in closed cockpit cars need not wear their helmet or gloves during the victory lap. **Drivers and passengers in open cockpit cars must be wearing helmets.** Drivers shall maintain a safe speed and be wary of safety vehicles that may be on course.

III. CAR SAFETY and TECH INSPECTION

- A. **DECALS:** Competition vehicles must display the official SCCA Summit Racing Equipment Road Racing decal per GCR section 9.3.29.C (Figure 4). (This SCCA decal does not serve as the Summit Racing Equipment contingency program decal.) To be eligible for the CenDiv Divisional Championship Series presented by TRO Manufacturing and BrakeOMeter cars are required to display CenDiv Series stickers visibly on both sides of the vehicle. Stickers will be provided free of charge and may be obtained at tech.
- B. **DATA ACQUISITION:** Majors staff and their delegates may install data acquisition equipment in a competitor's car. This program is to assist the CRB in performance balancing. If selected, participation is not optional and is not protestable. The data collected will not be used for compliance purposes. All cars carrying an SCCA data collection device must report to impound and be weighed immediately after their session. Failure to do so may result in penalties.
- C. **SCALES** are located at the CTECH Scale House just south of the Hagerty Tech Center. Scale hours are listed on the event schedule. The availability of scales and times will be posted at Tech. Scales may be available for other participants during race impound, but priority will be given to impounded cars. Scales may be made available at other times at the discretion of the Chief of Tech.
- D. **TECH** will be in the Hagerty Tech Center. Drivers **with** a current year helmet sticker (signifying their driver gear and helmet have been inspected previously in the current year) are not required to present their helmet or gear at Tech. Only the SCCA logbook and completed tech card (provided to the driver or entrant during Registration check-in) are required to be presented. Any vehicle **without** a current Annual Technical Inspection stamp and/or helmet **without** a current year helmet sticker must be presented for annual inspection. Please allow sufficient time to have your car inspected.

IV. QUALIFYING/RACE

- A. **GRID:** Starting positions for Saturday Qualifying will be set based on first to arrive at Grid. Starting positions for the Saturday race will be determined by the fastest time recorded for each car from the preceding qualifying session. Starting positions for the Sunday race for all other classes will be determined by the fastest time recorded for each car during any of the preceding qualifying sessions or the fastest lap during the Saturday race. If qualifying is not run for a group for any reason, the Race Director shall determine the method of setting the grid for the race. The fastest qualifier in a race group who selects the "outside pole" (per GCR) must notify the Grid Marshal at the front of the field before the five-minute warning is given for that race group. Cars arriving at the grid after their group has been dispatched on track may, at the discretion of the Operating Steward, be held at pit out and released at the end of the pack after the field has completed the pace lap. If the Race Director allows the substitution of a car or driver, per GCR 5.12.3.A.6, any qualifying times earned for the original car/driver up to that point will be removed.
- B. **CURRENT ROAD AMERICA TRACK RECORDS** may be found at on the CenDiv website at: cendiv-scca.org/wp-content/uploads/TrackRecords/ra.pdf
- C. **RACE:** A driver who is unable to maintain a safe pace during the race may be black flagged.

V. IMPOUND

- A. **SPLIT STARTS** from any group without one indicated in the schedule will be at the discretion of the Race Director who

must receive a request within 30 minutes after posting the final grid.

- B. **IMPOUND:** For Saturday and Sunday races, the top three competitors in each class shall report to impound immediately following the completion of their race or victory lap.
- C. **CONTACT AND FLAG RULE VIOLATION:** A competitor involved in contact or who has violated flag rules (yellow, black, red, or checker) must proceed directly to the black flag station or impound in the racecar at the end of the session, and report to the steward. **All on-track body contact** (including contact during drafting) that causes a car to act erratically and result in a change of position or a car leaving the course will be investigated. Drivers who do not satisfy this requirement will be referred to the Stewards of the Meeting (SOM).

VI. GENERAL

- A. **RACE LENGTH:** Saturday races will be 25 minutes. Sunday races will be 12 laps or maximum of 35 minutes. When the LAST LAP INDICATOR is given at Start/Finish, the next flag will be a checkered flag. In the case of a long delay and where the time limit has expired, the Race Director may convert to laps to allow a green, white, checker to complete the race.
- B. **JUDGES OF THE FACT:** Any starter, steward, or timing person in an appropriate location as determined by their chief or Race Director/Chief Steward are designated Judges of the Fact for starts and finishes per GCR 5.11.3.
- C. **RESULTS:** Live timing will be available during the event. Live timing is neither official nor protestable. Unless otherwise announced, live timing will be available via the Race Monitor App, Race Hero app, or SpeedHive app, and are available for iPhone and Android phones. Qualifying, provisional and final results will be posted at Driver Information but may not be immediate or timely. We encourage accessing results electronically.

- D. **START TIMES:** Start times indicated in schedule are when cars are scheduled to be released from grid onto the track.
- E. **EVENT SCHEDULE / RUN GROUPS:** Actual session start times may be delayed from the published schedule due to unforeseen circumstances during the event. It is the driver's responsibility to listen to the PA system and pay attention to activity on track. The schedule or run groups may only be changed (or start times advanced) at the discretion of the Race Director, with concurrence by the Road Racing Committee Co-chairman, depending on pre-race entry counts or as needed to accommodate situations during the event.
- F. **CANCELLATION:** If part of an event is cancelled for reasons of safety or forces beyond our control as provided by GCR

Appendix B.1.2.A., points will be awarded based on race grids.

- G. **DISABLED CARS:** Disabled or damaged cars may be removed from the course and delivered to a central location. If the car has sustained body/chassis damage it will be released to the driver/crew after tech has made appropriate notations in the vehicle logbook. If the car requires wrecker support to return to its paddock location, there may be a delay depending on the availability of wreckers or flat tows.
- H. **CLOTHING:** Safe apparel must be worn in the pit lane, false grid, and grid at all times (long pants, sleeved shirts, and closed-toe shoes). Crew members must display their event credentials at all times while on pit lane and on the grid.
- I. **PIT LANE:** Drivers are to maintain a safe speed on Pit Lane with **absolutely** no racing. Cars entering the track from the pits must remain to the right of blend line until the end of that line at turn one. Tire scrubbing is permitted after the apex of corner one. Use the transit lane until reaching and upon exiting your pit stall. Do not drive through other pit stalls. To facilitate timely movement of the next race group onto the track, cars entering the pits following the checkered flag may be stopped before center pit to allow the next group to exit the grid. All cars will exit the hot pits only at pit out. Please do not put any equipment in the pit lane, including at the pit wall, +/- 10 feet of start/finish as this may interfere with timing and scoring electronics. Four (4) crew members (plus the driver) are allowed over the wall to service a vehicle in pit lane and only two (2) crew members are allowed over the wall for signaling purposes. No crew members are allowed at the pit wall during starts and restarts.
